

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

*An Account of a sort of Sugar made of the Juice of the  
Maple, in Canada.*

**T**HE Savages of *Canada*, in the time that the Sap rises, in the *Maple*, make an Incision in the Tree, by which it runs out; and after they have evaporated 8 pounds of the liquor, there remains one pound as Sweet, and as much *Sugar*, as that which is got out of the Canes; Part of the same Sugar, is sent to be refined at *Roven*.

The Savages have practiced this Art, longer then any now living among them, can remember.

There is made with this *Sugar*, a very good Syrup of Maiden Hair, and other Capillary Plants, which is used in *France*.
